The nutritional analysis is comprised of data from an independent testing facility commissioned by Maggiano's, combined with nutrient data from Maggiano's suppliers, the United States Department of Agriculture and nutrient database analysis of Maggiano's recipes using Genesis SQL Nutritional Analysis Program from ESHA Research in Salem, Oregon. The rounding of figures is based on Food and Drug Administration guidelines. Maggiano's attempts to provide nutritional information regarding its products that is as complete as possible. Some menu items may not be at all restaurants; test products, test recipes, limited time offers, or regional items may not be included. While menu item ingredient information is based on standard product recipes, variations may occur due to ordinary differences inherent in the preparation of menu items, local suppliers, region of the country and season of the year. Additionally, no products are certified as vegetarian. This listing is updated periodically in an attempt to reflect the current status of Maggiano's products.
